## Invitation

Dear Friends and Colleagues,

It is a great pleasure for me to invite you on behalf of the German Society for Military Medicine and Pharmacy to the Second Congress of Military Dentists at Hannover Medical School.

This two-day congress, like the first one two years ago, will provide a broad scientific programme that features renowned academic experts who will present to you a wide variety of topics of particular relevance to military dentists.

Apart from theoretical aspects of dentistry, the programme will also cover practical issues (dental implantology, mechanical root canal treatment, the use of biomaterials, internal fixation, etc.), which will be addressed in a number of workshops to be held on the afternoon of the first congress day.

The purpose of this congress is not only to provide a platform for professional exchange but also to foster comradeship. For this reason, an informal gathering will take place on the evening of the first congress day.

If you wish to attend the congress, please complete the attached form and send your binding registration via e-mail to [marcus\\_stoetzer@web.de](mailto:marcus_stoetzer@web.de).

We have a special contingent in a hotel near the congress. Please book your room by your self.

I look forward to welcoming you to the congress.

## Wednesday 01. July

8:00	<b>Greeting</b>
9:00	<b>Prof. Dr. Meyer</b> Critical Evaluation of Biological and Medical Aspects of Dental Filling Materials (will CAD/CAM be the future?)
10:30	<b>Break</b> Visiting industrial exhibition
